Devinder Singh

Fullstack Developer · Open Source · Stockholm

● Seeking LIA internship · November 2026

PROFILE

Fullstack developer student at Chas Academy in Stockholm, building modern web applications from frontend to backend. I work with React and TypeScript on the frontend, and Node.js, Fastify and Bun on the backend with MongoDB and PostgreSQL. I have completed a cybersecurity course which shapes how I think about API design, authentication and data handling. I work well in agile teams using Scrum and Kanban, and I am always looking to improve how I build and think about software.

EDUCATION

Fullstack Developer — Open Source (YH) 2025 - 2027
Chas Academy · Stockholm
- React, TypeScript, Node.js, Fastify, MongoDB, PostgreSQL
- Testing with Jest and Cypress · CI/CD with GitHub Actions
- Agile methodologies — Scrum, Kanban, user stories, backlog management
- LIA internship placement: Nov 2026 – Apr 2027

Cybersäkerhet för yrkesverksamma (25 YH) 2025 - 2026
Chas Academy · Stockholm

PROJECTS

I continuously build projects across the full stack — AI-powered apps, real-time systems, REST API backends and fullstack web applications. I work both solo and in groups, applying agile methods and real-world architecture patterns. More projects always in progress. Selected examples: AI Prompt Manager (Fastify · MongoDB · JWT), Chat App (Socket.io · TypeScript), AI Assistant App (React · Gemini API).
